SPECIAL ELECTROMECHANICAL CONSTRUCTIONS

PROVISION OF TECHNICAL ADVICE

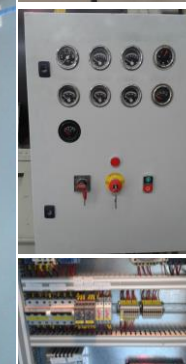

# CONSTRUCTION & ASSEMBLY OF LOW VOLTAGE ELECTRICAL PANELS

A strong technical background with substantial experience in control systems. We build from simple control systems to integrated custom solutions.

Our company offers a range of solutions covering:

- Power generators control panels and auxiliary systems
- Power generators parallelism systems
- Automatic switches (ATS)
- Control Desk
- Generator and Network Protection Panels

# *CONSTRUCTION & ASSEMBLY OF LOW VOLTAGE ELECTRICAL PANELS*

CONSTRUCTION - FACTORY TESTS - INSTALLATION - ON-SITE TESTS - DELIVERY IN FULL AND NORMAL OPERATION OF ALL EQUIPMENT, AUTOMATIONS AND SCADA & BMS SYSTEMS.

## *INSTALLATION OF POWER GENERATORS & GAS TURBINES FOR ELECTRICITY GENERATION*

We provide comprehensive installation and maintenance services to critical power generation units throughout Greece.

We understand that energy reliability is an important concern. The electrification of the networks must work without interruption, and this must be done safely. We keep the shops open, the hospitals working and of course the communications uninterrupted!

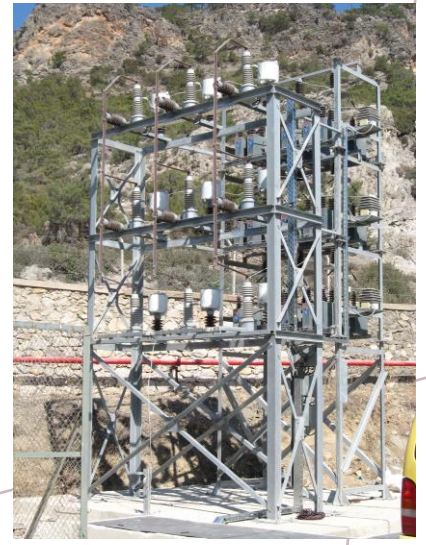

Over the years, the multitude of production units we have installed ranks us as one of the few companies with the most experience in the field of energy production.

## *APPLIANCE OF MEDIUM VOLTAGE SYSTEMS*

Our company offers complete turn-key services for any medium voltage application.

- Installation of medium voltage fields
- Reactive power compensation
- Construction of terminal boxes & straight connections
- Construction of substations
- Customized solutions

## *MECHANICAL INSTALLATIONS OF EQUIPMENT & NETWORKS*

Xaskis Energy undertakes the implementation of specialized engineering projects that cover the entire spectrum of design, supply & construction. We are constantly developing our technical background, each time successfully responding to the growing demands of projects in the energy sector.

We manufacture:

- Networks of fuel, steam, fire fighting, flue gas, water, air, etc.
- Metal constructions

We install:

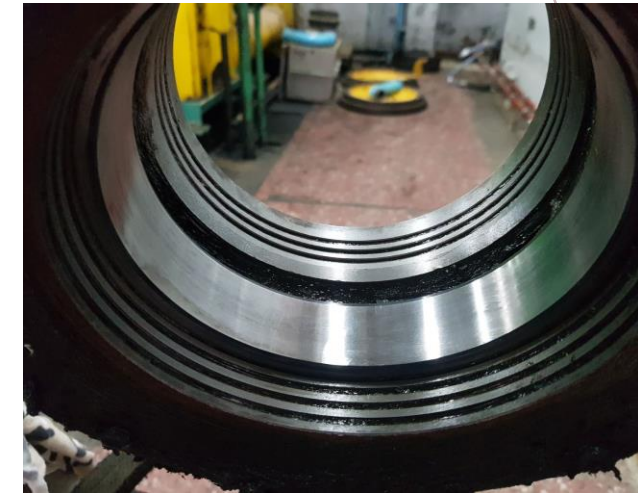

- Electromechanical equipment
- Machinery
- Chimneys
- Fire fighting & pumping stations

## *GENERATOR REPAIRS & MAINTENANCE*

In order to get the maximum performance from one's equipment, especially when it consists of moving parts, a professional should also count on regular electromechanical maintenance by technicians who know what they are doing.

Our company, as a certified partner of Leroy Somer, the major French manufacturer of generators, provides electromechanical maintenance, genuine Leroy Somer spare parts and repairs for any kind of problem that may concern your generator.
